### More Information

The Sony DSR-PD100A Handycam style digital camcorder is a new addition to the ever-growing DVCAM product line-up. Within its compact and stylish body, it boasts a newly developed 3CCD-imaging device, which provides excellent picture quality, and a new function - still image recording on a removable memory media. With these features, the DSR-PD100A will offer new opportunities for a variety of professional applications.??The DSR-PD100A is a highly portable camcorder, which weighs just 1 kg (2.2 lbs) with a battery and a tape. A magnesium alloy die cast body keeps it light but robust. This mobility is a major asset in the field of professional acquisition. The DSR-PD100A has a large 3.5-inch color LCD monitor with 184, 000 pixels, opening 90 degrees to the side and swiveling 180 degrees. It allows the user to shoot the object in low and high angle conditions while monitoring the picture. The LCD is also useful for viewing a recorded tape, or stored picture. The DSR-PD100A uses InfoLITHIUM battery system. The...
